STRATEGY

- The website is designed for purpose.
- ✓ Children from Grade 4 – Grade 7 can improve their logical thinking by solving Math questions.
- ✓ Children can learn how to study Math – study through stories, tales, animation, music, games. Beyond that, we want to show that Math is not just about numbers and shapes; it's also about science, invention, nature.
- ✓ We want to help application about Math, we want to help children get interested in Math.
